

Exhibit H

Fundraising Contracts

As more particularly described in Exhibit G1 and G2, High Alert Institute, Inc. (the “Institute”) intends to undertake fundraising through a variety of programs. At the present time the Institute intends to engage in all fundraising activities on its own. However, the Institute may in the future engage the services of individuals or fundraising organizations with the requisite experience and qualifications to assist with the Institute’s fundraising efforts. If the Institute engages the services of outside fundraisers, it will enter into a written agreement under terms similar to those of similarly situated organizations and will pay no more than reasonable compensation for the services of outside fundraisers.
